

Zarin Taskini

(Sholeh Samavati or Masoumeh Bashiri) Mother

She was always interested in having sexual relationship with younger guys. She and the young guy were caught sleeping by her first husband (Mr. Bashiri) in Tehran. Her husband took them to the police station and sends them to Rasht for the divorce. Her children, Hassan, Hussein, and Sholeh were lost among their family. They had hard time to grow. Sholeh decided to stay with her father after few years living in Rasht and has to do all house work for her step mother and she did not like it and finally she got married a con-artist and they live in Houston. Hassan is going to live in Germany after selling an apartment that was bought by Sholeh money.

Their mother did not care about them and she married with the second husband who was her mom's sister husband (very bad in Iran). She has three daughters from the second marriage.

Mr. Atef Yakta (second husband) kicked her out of house in Fuman because he got her cheating with another man. (Suspicious). She did not have money to rent an apartment in Rasht so she decided to live in her daughter apartment and Sholeh Samavati sent her \$10,000 to buy an apartment and she did not buy any apartment. She is a retired teacher. She spend most of time traveling and staying in Houston and Canada, and other places with their children (using them) and

mad why Sholeh does not spend time with her in Houston and She only cares about her work. **Did you care about your children when they were young?**
